Our Line Of Groceries Has
Been Very Much Extended.

We carry a stock of
BLOCK AND COARSE SALTS CONCENTRATES, and POULTRY SUPPLIES

**ALSO MAPLE LEAF OILS
& GREASES**

AND

A full line of ATLAS BATTERIES

Come in and inspect our stock.

NEW SCHEDULE PRESERVES RATIONING

EFFECTIVE SEPTEMBER 30, 1943

Preserves rationing gives the consumer a number of choices both of products and sizes of containers. Because of the wide range of container sizes and the variation in buying habits across the country it was necessary to put the system into operation and then make adjustments on the basis of experience.

Now that preserves rationing has been in effect for several weeks, it is possible to make some increases in coupon values. The new schedule is announced below and is effective September 30th.

The new doubled ration allowances for molasses, extracted and comb honey will enable consumers in areas where consumption of these products is heavy, to buy more and still leave enough for districts where the total demand is light.

The increased ration allowances for corn, cane and blended table syrups and maple syrup are adjusted to bring coupon values more closely into line with the great variety of container sizes now in use.

ONE "D" COUPON IS GOOD FOR

Not More Than

Jams, Jellies, Marmalades, Maple Butter,
Apple Butter or Honey Butter - - - 6 FLUID OZ.

Comb Honey (in Squares) - - - - - One Standard Section

Cut Comb Honey - - - - - 1 LB. NET

Extracted Honey or Maple Syrup - - - 12 FLUID OZ.
(1 LB. NET)

Maple Syrup - - - - - 1/2 LB. NET

Molasses - - - - - 20 FLUID OZ.
(1 PINT)

Corn Syrup, Cane Syrup, or any Blended
Table Syrup - - - - - 14 FLUID OZ.

Canned Fruit - - - - - 10 FLUID OZ.

Sugar - - - - - 1/2 LB. NET

Coupons D-4 and D-5

NOW BECOME VALID SEPTEMBER 30th

The validity date of these coupons has been moved forward from the original October 14th to September 30th.

This has been done to accommodate purchasers of some items which at this season of the year are normally bought in large units.

Coupons D-6 and D-7 will become valid on November 11th and the original schedule will be continued from then on, with two coupons becoming valid every four weeks.

RATION ADMINISTRATION

THE WARTIME PRICES AND TRADE BOARD

PR 2W

GOVERNMENT OF THE PROVINCE
OF ALBERTA

TENDERS WANTED

Tenders wanted for the Purchase or Lease of the ALBERTA GOVERNMENT FARM at YOUNGSTOWN, Alberta. Sealed tenders, addressed to the undersigned, will be received up to and including October 15th, 1943, for the Purchase or Lease of the Alberta Government Farm at Youngstown, comprising the West Half of Section 3, Township 30, Range 9, West of the 4th Meridian, containing Three Hundred and Sixteen (316) acres, more or less, as described in Certificate of Title 50 H 149, excepting the school building, principal's residence, machine shed, and such land immediately surrounding the said buildings as required for entrance thereto. In addition to the above described land there is a farm residence which is a modern, two-story building, with full basement, also a large barn and combined machine shed and granary, for Sale or Lease, with the land. The highest or any Tender will not necessarily be accepted.

W. A. Fallow,
Minister of Public Works,
Parliament Buildings,
Edmonton.

The farmers in this district are making hay while the sun shines. The weather is grand and the farmers are rushing the harvest work through.

NOTHING MATTERS NOW

but..

FARSIGHTED householders are seeing the urgent need of preparing their homes now against this winter's coal shortage. They are acting now!

**HEATING SYSTEMS MUST BE
EFFICIENT: HOMES SHOULD BE
ADEQUATELY INSULATED.**

Here are some jobs you should be doing NOW!

- 1 Have your entire heating system inspected. Order necessary repairs.
- 2 Have your furnace thoroughly cleaned by a competent man. Insulate furnace and pipes where necessary.
- 3 Be sure that you have sufficient storm windows and that all windows and doors fit tightly. Have cracks in walls repaired. Weatherstrip wherever it is necessary. Consider seriously the insulation of ceiling and walls.

Many homes waste as much as 60% of their fuel through inefficient heating equipment, inadequate insulation and other heat losses. Winter is just around the corner. Prepare NOW!

Save one ton in five

THE DEPARTMENT OF MUNITIONS AND SUPPLY
HON. C. D. HOWE, Minister

Basic English

PRIME MINISTER CHURCHILL in a recent address delivered at Harvard University, referred to basic English as the possible international language of the future. Since that time there has been considerable public interest in this possibility, and it has been the subject of much discussion. Devised principally by C. K. Ogden, director of the Orthological Institute at Cambridge, England, and Ivor A. Richards, now of Harvard University, basic English is an extremely simplified form of English, as we speak it. Our language is said to include some 20,000 words, while basic English has only 850. Of these, 600 are nouns, 18 are verbs and the remainder are made up of adjectives, pronouns and the other parts of speech. In it, everything connected with everyday existence may be expressed, yet as Mr. Churchill pointed out, the whole vocabulary can be put down on one side of a single sheet of paper. The rules of grammar are correspondingly simple, and we are told that an average person can master basic English by devoting two hours of study to it, each day for a month.

English Widely Used Today

The idea of an international, or auxiliary language, is not a new one, and there have, in the past, been other suggestions in this regard. In the Middle Ages, Latin was the universal language of the educated people, and in later times French was the accepted language for diplomatic purposes. There has, however, been a growing tendency towards the use of English as a common language when different nationalities meet, and situations arising out of the present war have increased this trend. During the past few years Britain and this continent have become the home of many thousands of people from the oppressed countries of Europe, and it has been necessary for them to master some English, in order to carry on dealings with those about them. In Europe itself, many people have studied English in order to be able to understand the English radio broadcasts, bringing them news of the outside world.

May Make For A Lasting Peace

The planning of an international language at this time, is being done with the hope that it may be an important factor in the creation of better understanding between nations in the years to come. The fact that English is likely to be the basis of this language, is due no doubt in part to the fact that Anglo-Saxon nations will have an important part to take in the building up of a world-wide structure for lasting peace in the future. Another consideration is the fact that more than 200,000,000 people speak English as their mother-tongue. The only larger group speaking one language is the Chinese, who number 400,000,000. In many parts of the world, English is already taught in the schools, and plans are now underway to teach it as the "second language" in all the schools of the liberated countries. The lands where English is spoken have been the cradles of much of the social and moral progress of the human race, and it is to be hoped that as it spreads, so may the principles and ideals which it has expressed.

FOOD STORAGE

After the hard work you spent this summer on your victory gardens, you will want to be certain that the resulting vegetables will not perish before they are eaten. Storage of the garden produce in the home can be relatively easy if a few simple rules are carefully followed.

For a storage room—any part of the cellar with a window leading directly outside may be used. The room should be kept cool, dry, and sand and sprinkle water occasionally to maintain the proper moisture content of the air. This room will need walls that are well insulated and a well fitted door to provide an even temperature. Containers for the vegetables should be constructed against the outside walls and have slatted sides and bottom to provide for ventilation.

Whitewash used on the walls makes for a sanitary room and annually a solution of the garden produce in a gallon of water can be used as a cleanser and disinfectant. Of course you will need a good thermometer.

You must take great care in grading and sorting the garden produce if you want to eliminate decay. The fruits and vegetables should be fully mature, clean and dry, free from damage caused by insects, disease, rough handling, freezing and chilling. During the winter you must sort the produce regularly and remove any defective specimens as they will contaminate the sound stock.

Root produce such as beets, carrots, parsnips, salsify, turnips keep best at 38° to 39° degrees F. and in sand. Potatoes need the same temperature but should be placed in crates allowing good ventilation. If you wish to keep tomatoes, wrap each green tomato separately and place in a closed box. When you are storing apples be sure they are free from bruises and broken skins. They should be placed in wooden crates to allow for air circulation at approximately 33° to 38° degrees F. with a humidity of from 88-95%.

For more detailed information on the storage of fruits and vegetables write to the Western Division Health League of Canada, 111 Avenue Road, Toronto, for Household Storage of Fruits and Vegetables.

Secret Weapons

German Science In This War Has Been A Flop

Hitler and his goons Goebbels have been talking again about some new "secret weapons." Something that is going to stop bombs falling on the Ruhr and Berlin and turn the war scales in Germany's favor.

Time was when this sort of talk was a bit frightening. Now it's no more terrifying than a stuffed lion. Hitler first used the "secret weapons" threat in a speech at the Berlin Sports Palace a few days before the war. Yet when he attacked Poland he had nothing more than his Luftwaffe and his tanks. He used the threat again later on, but this time it was merely his magnetic mine, a device that the Allies mastered so quickly it has not been heard of since.

The truth is that German science in this war has been something of a flop. It has produced good weapons; good planes and good tanks; but nothing that Allied resistance men and engineers haven't equalled or surpassed. Radar, one of the most potent of the war's inventions, is an Allied product.

Hitler's latest "secret weapon"—announced solemnly by a Wilhelmstrasse spokesman last week—is said to be in the category of bomb. It will be believed when it is seen and heard in action—and that we imagine goes for the disillusioned German public as well as for ourselves. Ottawa Journal.

Cannot Be Destroyed

Every Person Can Be Definitely Identified By Finger Prints

"Every living human being carries on his fingertips a signature that is definitely and legally his own," says John J. Floherty (in his book, "Inside The F.B.I."). "It is as authentic as the signature of the President of the United States on a state document. It singles him out from his fellow men as clearly as if he bore an indelible number on his forehead. This characteristic autograph cannot be forged nor changed, nor can it be permanently destroyed except by amputation.

"This 'highly personalized signature' consists of ten characters. They appear one on each bulb on the inside of the first joints of fingers and thumbs. In the process of fingerprinting all ten fingers are recorded, although a print from any one of them can prove the identity of the person from whom it came.

Certain kinds of work like stone masonry or dish-washing may wear down the ridges and make the pattern less distinct, but a short period of idleness or a change of vocation restores them to normal."

PROBLEMS ARE PROOF According to a London doctor memory is at its best between the ages of 11 and 14. And, says the Ottawa Citizen, if dad doesn't believe it, let him try some of the problems Willie polished off in his entrance exams.

Famous March Origin

Composer Got His Idea While Playing Game Of Golf

The national anthem of the United States is not a march tune, but Sousa's "Stars and Stripes Forever" might be called the universal march of the United States Army. The national anthem of the United Kingdom is not a march tune either, and while each British regiment has its own march, popular note would most undoubtedly place "Colonel Bogey" in the corresponding position to "Stars and Stripes." Several million men joined the British and Empire infantry during the last war, and almost every man Jack of them at some time or other marched to the swing of the spanking, lively tune, which brought vigor back to tired limbs although there is nothing patriotically stirring about the title, which vaguely suggests something to go with.

And it has, for it was on a golf course that the germ of the tune originated.

According to the music sheet the composer is Kenneth J. Alford, but that is just the name under which Major F. J. Ricketts, director of music of the Plymouth division of the Royal Marines publishes his marches. One day the composer was walking across a golf course when one of the golfers whistled to him as a warning to get out of the way. It was only two notes a minor third apart. Ricketts whistled the same two notes back a tone lower. Later he met the golfer in the clubhouse, and finding his exchange of whistling he put them together and improvised a theme, which, roughly at that moment was the first section of the march. Subsequently at home he played it over to his wife who advised him to develop the theme, which he did, the result being the most famous march in the British Army—"Colonel Bogey."—St. Thomas Times-Journal.

A Great Man

Livingstone Won Loyalty Of African Natives By His Kindness

Margery Perham in a B.E.C. talk said: "Livingstone believed in courtesy and gentleness even with savages. It worked. For about thirty years he travelled, generally alone, mostly ill-equipped, usually the first white man these primitive tribes had seen—and yet, when he died, it was not from an arrow or a spear but from dysentery, far away from any white man. And his African servants embalmed his body and carried it— their own brave decision—for nine months through 1,500 miles of savage bush and tribes to the coast. And three of them saw it brought home to Westminster Abbey and buried there. Livingstone was a great man. He was great in what he did—in the lonely courage with which he struggled on, sick and footsore through unhealthy Central Africa, right through what's now Rhodesia, and Nyasaland, the Belgian Congo and Tanganyika. But he was great too in his words and writings, and in the great call his life made to the British people, not to stop at the coast but to go right on into Africa and put down the slave trade there and bring in Christianity and civilization. There were explorers before him, but Livingstone called not only to men's sense of adventure or desire for commerce, but to their compassion and their Christianity.

FAST TRAVEL

If trans-Atlantic airplane speeds are raised 720 miles an hour, the flying time between the United States and Great Britain would be about five hours. Allowing for five hours' difference between Eastern Standard and British time, this means that a passenger who left London at noon would still find it noon when he arrived in New York.—New York Times.

Soldiers in the Canadian Army are protected against foot trouble by regular foot inspection before and after each route march.

Our Boys And Girls On Active Service

(By Ottawa Observer)

THE Canadian premiere of "Meet The Navy" in Ottawa was a knock-out, playing to dandy and enthusiastic crowds. The sailors and Wrens in the cast don't have to take a back seat to any of the wartime entertainment outfits, and the show really is going to please everyone in Canada who gets the opportunity to see it. Watch for dates out your way and if you happen to be near a centre getting it, take a tip, try and make it. Swell entertainment, I call it.

Westerners, many, many of them, know the officer commanding the new Canadian War Staff Course, Junior Wing, starting at Kingston. He is none other than Lt.-Col. W. A. Cripps, whose home is at Saskatoon. A graduate of the University of Saskatchewan, he was officer commanding the 16-22nd Saskatchewan Horse, now overseas as a tank regiment, and which among its personnel men from northern and southern Saskatchewan.

Canada's newest escort vessel, H.M.C.S. "Sault Ste. Marie," now on active service, is being tested and dangerous waves of the North Atlantic, has among its complement some of those stalwart prairie lads who always seem to get jobs of praise from naval headquarters for taking to any life like a duck to water. Among the lads on this vessel include Cook Jim Aylong, of Camrose, Alberta; Stoker Petty Officer Robert Atwell, of Prince Albert, Sask.; George Sagart, of Dauphin, Man., and Clarence Johnson of Simile, Sask. The latter just a few weeks ago knew about as much about a tractor than a ship. Never having seen one except in pictures.

Sgt. Lieut. Margaret Mackie of Victoria, B.C., of the Wrens, who was in charge of the first batch of them to go overseas recently, and which included a lot of western girls, was living in Britain when war broke out. She was over Canada and helped looked after some 850 British refugee children on the boat. Now she was going back, looking after a gang of Wrens, but says it was an easier job than looking after the youngsters.

Some of you sons out from on the prairies have "rode the skies" over Germany and Occupied Europe with Wing Commander "Moose" Fumeron, D.F.C. and Bar, and ace night fighter of the Royal Canadian Air Force, and a fellow all Canadians should be proud to have in their midst. It is interesting to know that this gallant airman once, when a younger fellow, assisted Dr. Joseph Rott, the eminent biologist who recovered an iron ore mine in Labrador. It would make good reading, a story on what the eminent lads in our services did in civilian life.

That was a solemn warning, in the light of the tough fighting in Italy and the shape of things to come, which was given in a speech by Air Marshal W. A. Bishop, V.C., at Windsor just recently, when he said: "The Canadian Air Training Plan must not falter for lack of men to keep it going."

Among those decorated for acts of bravery in the R.C.A.F. in recent lists announced, were Pilot Officer H. H. Richardson, of Roblin, Man., a pretty town which has such a beautiful valley winding through a gorgeous valley. A. McMeekin, of Revelstoke, B.C., that little city nestled in the shade of one of the big "hills" of the Rockies. Both got D.F.C. and Bar. The boys earned them.

When the H.M.C.S. "Fraser" went down off Bonaventure, France, in 1940, there were many brave boys who made the supreme sacrifice helping in the epic evacuation. The commander of that ship was Capt. Wallace B. Creery, with 29 years service in the Royal Canadian Navy. He has now been named Assistant Chief of the Naval Staff. He's a native of Vancouver, but well known to westerners. His son, a sub-lieutenant in the navy, also did valiant service at Malta when that tiny island won the George Cross.

The great deeds and heroisms of our Canadian Army in the Sicilian and Italian campaigns are yet kept in the background while the fighting is at its height. From time to time, these columns should have information available which will allow us to mention some of the outstanding western lads.

The largest warship ever built in Canada, the "Micmac," was launched from Bonaventure, France, in 1940. The ship was built by Canadian manufacturers provided most of the finished materials which have gone into her, many of them made in Canada. Canadian workmen fashioned her under the guidance of a few experts from the Clyde and other British shipbuilding centres. Until her actual commissioning she will be known simply as "Hull No. 12." As soon as she has been christened, the keel of a sister warship will be laid along the same slipways.

TONS OF WATER Somebody has figured that provision to the debilitation of food shipped to England from this continent we had shipped three million tons of water in food crossing the Atlantic.

Cincinnati was widely known as "Porkopolis" before the Civil War because of its extensive pork packing industry. 2539

Gets New Position

E. P. WELLS.

formerly assistant to the operations manager, Trans-Canada Air Lines, Winnipeg, has been appointed to the new position of co-operative assistant. His function will be to foster the spirit of co-operation between employees and management and to assist the employees in the development of co-operative committees. One of the original employees of T.C.A., Mr. Wells piloted the first mail plane operated by the company in its first service, between Vancouver and Seattle. He is well known throughout the west.

U.S. Sailors In Britain

Occupy Hotel In Cardiff Under Lease Arrangement

Among hundreds of buildings, from vast dockside warehouses to some of the stateliest houses in Britain turned over to the U.S. authorities in Britain under lease-lease in reverse, is a hotel in Cardiff.

In peacetime, solid, big and comfortable, it was a pillar of the commercial life of this busy port. Today the inside is little changed, but for glistening new paint or doors and wainscots, the homely touch of flowers in reception rooms and bedrooms, and amusements like snooker and table tennis equipment which no hotel guest would have dreamed of looking for. But outside Old Glory waves, and the doors are open exclusively to men of the U.S. merchant fleet. Men of all ranks come in search of good beds, food, medical treatment, a party, or maybe just a drink, and find it here.

Britain requisitioned and conditioned this hotel, fully furnished, to the requirements of the U.S. War Shipping Administration. Reverse lease-lease will pay the rent and take care of running repairs indefinitely. This club can sleep 60 men and is one of several operated in United Kingdom ports by the United States Service and the War Shipping Administration.

There's a bar that serves beer and Coca-Cola. American coffee is on tap, and the British civilian staff of five men and 15 women is getting adept at producing American dishes out of British rationals—and at talking American.

The club is just one of many goods and services, including docking facilities and ship repairs, and coal and petroleum supplies at many ports through the world, which Britain is providing for her sea-going ally wherever she can, and lend-lease in reverse makes for plain sailing.

GEMS OF THOUGHT

SINCERITY Sincerity and truth are the basis of every virtue.—Confucius.

Sincerity is the indispensable ground of all conscientiousness, and by consequence of all heartfelt religion.—Kant.

Loss of sincerity is loss of vital power.—Bovee.

A deep sincerity is sure of success, for God takes care of it.—Mary Baker Eddy.

Nothing more completely baffles one who is full of trick and duplicity, than straight-forward and simple integrity in another.—Colton.

Sincerity is impossible unless it pervades the whole being, and the pretense of it saps the very foundation of character.—James Russell Lowell.

LEARNING NEW WORDS

Catering for American troops in Britain has meant learning a lot of new words. The manager of a restaurant much used by Americans says that he and his staff are becoming quite used to serving crackers when asked for biscuits and serving syrup, treacle, or honey (when available) as our nearest approach to molasses.

The serving of marmalade with, instead of after, the bacon, kipper or other savoury dish ordered for breakfast is also becoming a habit.—Daily Sketch (London).

TO EASE MISERY OF CHILD'S COLD RUB ON VICKS VAPORUB

Over-Bleaching

Find That Textile Loss Through Bleaching Is Proved Great

According to experiment carried out in the Laundry and Dry Cleaning Laboratory of the National Research Council, Ottawa, the misuse of Javelle water, or sodium hypochlorite solution, as it is known to scientists, is the cause of a great annual loss of textiles.

Laundry experts have been trying for years to eliminate over-bleaching with its resultant deterioration of fabric.

Prolonged rubbing of a stain may weaken the fibres of a fabric, therefore, when stains become difficult to remove, bleach is often necessary. Bleach should only be used when other efforts are unsuccessful and then in the proper solution and never at boiling temperature. To use less than the amount given in manufacturers' instructions is better than to use more. Often directions accompanying bleaches call for the use of more than is really safe for the fabric.

HOME SERVICE

LEARN TO WEAVE AND MAKE LOVELY THINGS

Make A Basket

How useful your hands can be and how artistic if you train them! You could weave a strong useful basket as pictured above, or perhaps a lovely paste cloth for a gown, or maybe a smart rug.

Weaving is an art that has been considerably revived in recent years. Particularly since the war began, people are reverting back to making their own materials because of a scarcity of the finer wools on the market.

Fingers are rediscovering weaving as a pleasant and useful pastime. Not so many years ago it was a necessary skill in the home. With the development of industrial machinery the craft was taken from the home. Years have passed, and war, more than anything else, has brought it back to the home again.

If you want to learn how to weave, our 32-page booklet will help you greatly. It tells you what materials you need and then explains clearly how to weave various articles from rug to baskets.

The booklet avoids the complex. It tells what can be done on the more advanced looms but it really gets down to cases with such simple looms as pieces of cardboard, embroidery hoops, breadboards.

And 45c in value for your copy of "How To Weave Useful Novelties" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermott Ave., Winnipeg, Man. Be sure to write plainly your name, address, and the name of booklet.

Now In Training

British Teachers Going To Polish Schools After Country Is Freed

Arrangements are now being made for sending British school teachers to Polish schools and academies as soon as the country is freed. Already 50 teachers are in training, learning the language, studying the history of the country and its institutions. The British and Polish Governments are supporting the scheme. The number of trainees is to be increased if the demand justifies an extension of the plan, which will later be adopted for other Axis-overrun countries.

Initialed Slip

A slip that you can trust under your smartest dresses is Pattern 4498. Well thought-out to the last seam, it caresses your figure just where it should, and stays in place. You couldn't ask for a better fit. A transfer pattern from which you may select your initials is included... also a step-by-step Sew Chart. Pattern 4498 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36, 2 1/2 yards 39-inch. Send twenty cents (20c) in coin (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

The city of Baltimore is named after Lord Baltimore, who originally received the grant of land on which it stands.

Beau Jonathan

by J. B. Ryan

CHAPTER IV.

JONATHAN HALE turned away, striving in the direction of the barn behind his grandfather's cottage. Like a sinner doing penance, he applied himself to the chore about the little farm, striving by labor to purge himself of the internal havoc created by the lips of Anne Jamieson.

That had been the first time in his life that Jonathan had ever kissed a girl, and he was troubled by the experience for hours. At length he quitted the barnyard for the house where he found Faith, her hands in a bowl of flour and her arms white to the elbows.

"Faith," he said, and it was the first time he had spoken all day, "I want you to kiss me."

The placidity of her face became disturbed. "But—Jonathan—" she stammered, "we—are—not married yet."

He caught her by the shoulders. "Kiss me, Faith," he said. "There is something I must know."

She lifted her face obediently and he kissed her. He had never before had done with Miss Anne, Jonathan closed his arms about her. Faith's lips made a smacking sound. "There," she laughed, "is that what you want?"

Jonathan's arms fell away. The kiss of Faith had left him entirely unmoved. The contact had aroused within him none of the fire, none of the fierce joy aroused by Anne Jamieson.

"JONATHAN!" Grandfather Hale's voice boomed from the doorway. "What does this mean? Has that young fellow bewitched you? I saw you kiss her this morning. Now I find you embracing Faith. Can you not wait until she is your wife?"

"Faith and I are not going to be married," said Jonathan, then added humbly, "I am sorry, Faith."

He stared at him humbly, her eyes blinking once in perplexity. Thomas Hale's stooped shoulders straightened and he strode toward his grandson. "What did you say, Jonathan? Of course you are to wed Faith. That has been underwritten for years."

"No," the younger man shook his head. "It would not be right, Grandfather. We do not love each other."

"Love?" Hale barked. "What do you know of such poppycock?"

"London—the home of Belli!" Thomas Hale gasped, then composed himself enough to ask, "It is that where Jonathan?"

"Yes," nodded Jonathan. "I love her, Grandfather, and must go to her where she is."

The grim, grey face contorted as with an inward spasm, yet Thomas Hale's voice was gentle when he spoke, placing a hand on Jonathan's arm. "My boy, rid yourself of this devil's enchantment that can end only in misery."

Jonathan moistened his lips as though about to speak, then his mouth shut stubbornly and he remained silent.

"THE argument of the grandfather continued. 'Look, instead, at Faith. You will need a woman like her in Massachusetts. She will make a home for you, bear your children, feed you and keep you clean.'

"I am not going to America," said Jonathan. "The farm is sold, I know, and all preparations made. You and Faith can board the ship without me. I am still of mind to go to London town."

"The old Puritan hung Jonathan's arm away to violently that the gesture was almost a blow. 'You shall come with us or starve! If you persist in this madness you shall not have a penny when you depart!'

"I want nothing from you, grand-sire. I shall take with me only what is mine—my father's sword and my horse—the gelding purchased with money earned by myself."

Thomas Hale stopped back, flinging up his white-haired head. "Get ye gone, then!" he rasped.

No further word was spoken as Jonathan went into his room to bed. The sword about his waist. When he reached the kitchen door on his way to the stable, Faith stirred as if to speak, but a warning sign from Hale silenced the girl. When Jonathan, on the saddled and bridled roan, turned toward the road, the grandfather was at the gate for a parting word.

"You can make the trip to London and back to Winnie in three days," said the old man. "That will still give you time to catch the boat from Southampton. I give you that long to learn that the smile of your painted lady will be brief when she finds you have no gold."

"You need not wait for me," said Jonathan. "Farewell, Grandfather. God be with thee."

THE vastness of London appalled Jonathan's provincial eyes. Where in that maze of straight and crooked streets, among the buildings crowded so closely together, could he begin his search for Miss Anne Jamieson? His only clue was that she was a player of the theatre. The first thing to do, then, was locate himself at an inn and make inquiries.

A sign caught his eye—a grimed and weathered blot of paint that could still be distinguished as letters: Ye Golden Hynde. Jonathan dismounted before the door and hardly had his feet touched the ground when an ingratulating whistle sounded at his elbow: "A penny for a poor man, sir?"

The beggar was an emaciated individual, a head shorter than Jonathan,

than, with a wrinkled face black with ingrained dirt. Jonathan dropped a shilling into the unwashed palm before he realized that he had broken his resolution to be as saving as possible with his few coins.

"Thanked, sir," the beggar tugged a greyish forelock and pocketed the alms.

The Inn of the Golden Hind dwarfed into insignificance the modest establishment of Master Knowles, the common room itself being vaster than the Winnie tavern. The place was filled with stale smoke and the sour smell of ale and wine. Many of the tables were occupied, by both men and women, some eating and others busy with cards, dice and money.

The price of a room started Jonathan at a night's lodging and one full meal would consume his entire store of shillings. Nevertheless, he paid without a murmur, then hesitated to question the landlord concerning the location of the various theatres.

Ames, with the information, he set out, but at only one playhouse were the names of Miss Anne Jamieson and Monsieur Denys known, but no suggestions were proffered that would disclose the present whereabouts of the pair. Jonathan was depressed when he returned to the Golden Hind.

THE morning found his time up at the inn and his pocket empty. But Jonathan was not the man to abandon a quest. The previous afternoon had given him a rudimentary knowledge of the city. He rode his horse until he found a livery and sold the gelding for a sum that would keep him in board and lodging for some time to come, then set out on foot once more, to hunt other theatres and make the customary inquiries.

At the end of the second day he had contacted all the theatres of importance and had been turned away with shakes of the head. Tired and sore, he was on his way back to his dwelling-place, when he sighted among the pedestrians, he sighted a familiar figure.

The street was dim with twilight and the shadows of the buildings, but there was no mistaking the dark-haired, velvet-doubled Monsieur Denys.

"Denys!" Jonathan shouted, darting forward. But the dastard was too great for the little Frenchman to hear. A burly sailor refused to step aside for the running man and Jonathan had to shuck his pace to avoid a collision. By the time Jonathan had stepped around the sailor Denys was nowhere in sight.

STOWARD the spot where he had last seen the Frenchman. The street seemed vaguely familiar and he found himself standing before a building he recognized at once.

This was the Castle, the very first playhouse he had visited, leaning against the closed door of the players' entrance was the same light-lipped man who had turned Jonathan away the day before.

"Pardon me," Jonathan stepped forward. "Did Monsieur Denys enter this building?"

The doorman surveyed his questioner from head to foot. "Umm," he grunted, and spat. "So it's you again, be it? No, I told you yesterday there's no one in here."

"But—I saw him—a small, dark man—"

"Can't help it," the other scowled. "This place is empty. If you argue again I'll be just like calling you a liar."

Jonathan advanced another step. "Let me in. I must see for myself."

The fellow straightened, blocking the doorway more effectively. "If

you touch that latch," he warned. "I'll call the watch. I have my orders about craves like you."

Jonathan found his purse and extracted a coin. The doorman eyed the offering eagerly, and at last relented and unlocked the door.

"Er—you won't cause any trouble? You'll go on once if they tell you to get out?"

Jonathan nodded, and the door was unlocked. The doorman led the way, up a rickety unlighted stairway, down a hall until he reached one of a series of doors.

(To Be Continued)

SMILE AWHILE

Clara (visiting railroad round-house)—What is that enormous thing?

Foreman—That is a locomotive boiler.

Clara—And why do you boil locomotives?

Foreman—To make the engine tender.

Woman—I always feel a hot better after a good cry.

Friend—So do I. It sort of gets things out of your system.

Woman—No, it doesn't get anything out of my system, but it does get things out of my husband.

First Doctor—That lawyer of mine has a nerve.

Second Doctor—Why so?

First Doctor—Listen to this item in his bill: "For waking up in the night and thinking over your case—\$5.00."

"Why don't you get out and luste? Hard work never killed anybody," said the philosophic gentleman to whom Rastus applied for a loan.

"You is mistaken card, boss," replied Rastus. "Ise lost four wives dat way."

Diner—"What kind of pie have you today?"

Waitress: "We have three kinds—open-top, lattice-top, and kivered pie—but it's all apple."

Curious One: "Why do sailors wear such loose-fitting uniforms?"

Sailor: "Oh, that's to allow for shrinkage when we fall overboard."

Ethel: "But papa, he says he cannot live without me."

Father: "Tell him to think up a new one. I told that to your mother."

"These rock formations," explained the guide, "were piled up here by the glaciers."

"But where are the glaciers?" asked an old lady.

"They've gone back, madam, to get more rocks," said the guide.

"I hear your new lodger is a very impetuous fellow. Does everything in the heat of the moment?"

"Yes, it's his job. He's a blacksmith!"

The movie usher was in the dentist's chair.

Dentist: "Now, Miss, which tooth is giving you all the trouble?"

Usher: "Second from the left in the balcony."

Salads, Fowl Or Fish

What with Meatless Tuesdays and government orders restricting meat dishes to one choice a meal, dining car chefs, in their compact, rolling kitchens are meeting the challenge with a wide variety of fish, including Pacific Coast salmon, cod and halibut; egg dishes of many kinds, and salads, both chicken and fresh vegetable. Above, Chef George Yacyn, who has been running on Canadian Pacific Railway diners out of Winnipeg for 28 years, hands veteran waiter Paul Sarhan two popular "meatless" favorites—sliced cold chicken with salad garnish, and the unique Lake Winnipeg goldeye, one of the most popular of fish. Veteran dining car men like George and Paul report that the Canadian public is giving "cheerful support" to the railways' efforts to cooperate fully with wartime food restrictions.

School Lunches

Inadequate Preparation Makes For Dullness

An American doctor recently made the following statement: "There can be no doubt that much dullness on the part of school children, particularly among the lower income groups, can be traced in part to a lack of the proper kind of food."

In the light of surveys made in this country in 1939-40, there seems no doubt that this statement applies equally to Canada.

With school days here again the problem of the child who has to carry his lunch to school looms large.

Dr. L. B. Pett of Nutrition Services says—"There are few better community enterprises that pay better dividends in child health than a school lunch programme."

Where it is not possible to serve a complete lunch at school, Dr. Pett suggests that community groups, in co-operation with the local school board should give consideration to providing for a hot supplement to the lunch brought by the children from home. As examples of dishes which can be prepared with a minimum of equipment and labour, Dr. Pett suggests: hot cocoa, soup, baked potatoes, scrambled eggs, macaroni and cheese, or baked beans.

In many schools necessary equipment has been provided by the school board. The food may be supplied by each family in turn and the teacher supervises its preparation by the older children.

Nutrition Services, Department of Pensions and National Health, Ottawa, in answering enquiries in connection with the starting of school lunch projects.

SELECTED RECIPES

NOVELTY MEAT ROLL

1 egg
1 cup bread crumbs
2 tablespoons milk
1 1/2 teaspoons salt

1/2 teaspoon sage or chili powder
1 tablespoon Benson's or Canada Corn Starch

1 small or 1/2 medium onion, chopped
3/4 pound ground raw beef

1/4 pound ground fresh pork
Beat egg in a large bowl and add bread crumbs, milk, seasonings, corn starch, and ground meat. Mix lightly but thoroughly and pat mixture flat, on waxed paper, in an even, oblong shape. Also place a sheet of waxed paper on top of flattened mixture, and roll out or pat to 1/4" thickness. Remove top sheet of paper and spread meat mixture with filling (recipe below). Roll lengthwise in jelly-roll fashion, place in a well-greased roasting pan, uncovered in a moderate oven (350 degrees F.) for about one hour. Serve hot or cold, sliced, with scalloped or salads.

Filling For Meat Roll
1 1/2 cups grated raw carrot
1/2 cup chili sauce

1-16 teaspoon salt
1/4 teaspoon dry mustard

Mix all ingredients together and spread over flattened meat roll mixture before rolling up (see directions above). Serves 6.

PROVE IT YOURSELF

Take your house number and double it. Add 5. Multiply by half a hundred. Then add your age (no cheating). Add the number of days in a year. Subtract 615. The last two figures of the total will be your age; the others your house number. So says the Magazine Digest.

Full housecleaning and the Fall garden clean-up are almost due.

Many insects, commonly found in vegetable gardens, pass the winter in different stages of their development, on or beneath piles of plant refuse left lying about by the untidy or innocent gardener. Among many such insects might be mentioned the tarnished plant bug, imported cabbage worms, flea beetles, striped cucumber beetles, cutworms and leafhoppers. To reduce infestation next year, all plant refuse should be gathered up and burned just as soon as the last crop of the year have been harvested.

To destroy insects which lay their eggs in the autumn on grass and weeds, cultivation of the garden should be continued until freeze-up. Too many gardeners allow the weeds to grow unchecked during the late summer and autumn. This not only reseeds the garden with undesirable, but affords suitable host plants upon which many insects will lay their eggs for spring hatching.

Clean up and destroy any insect cocoons or egg masses adhering to trees, shrubs, fences, buildings and garden furniture. The effect of all such practices will be reflected next season in the reduced insect population inhabiting the garden.

Look out for Trouble from Sluggish KIDNEYS

Try the Original "Dutch Drops"

It is poisonous waste that your kidneys should be filtering out of your blood that may cause backache, dizzy spells, leg cramps, restlessness, sleep-broken nights, and urinating too often. For relief, the remedy that has won the grateful thanks of thousands for many years—GOLD MEDAL Eastern Oil Capsules.

This effective diuretic and kidney stimulant, the original and genuine Dutch Drops in carefully measured amounts in tasteful Capsules. It is one of the most favorably known remedies for relieving congested kidneys and irritated bladder. By works swiftly, helping the delicate filters of your kidneys to purify the blood.

Be sure you get the original and genuine—packed in Canada. Insist on getting GOLD MEDAL Eastern Oil Capsules, 40c at your drugstore.

H.M.S. Victory

Nelson's Flagship Goes Through A German Blitz

A gaping hole, such as she never knew while flagship of Lord Nelson's fleet, is the proud scar H.M.S. Victory bears as proof that she shared in the war against Hitler as imperceptibly as she did in the wars against Napoleon.

The Victory, a museum piece in Portsmouth docks, was bombed one night when German raiders attacked Portsmouth. A near miss blew away a large part of her under bow and blasted great chunks of debris onto her decks.

But the trim ship scarcely did more than shudder under the impact and still stands upright on the trestles built to keep her out of water. The hole remains, and probably will remain after the war, as an addition to her tourist lure.

A seaman who conducted a party about the ship approached the spot below deck where Nelson died and pointed to three wreaths placed there by officers of Allied navies—the Fighting French, the Netherlands and the Poles. He ended the tour in Nelson's quarters where autographed pictures of two present-day admirals—Cunningham and Stark—adorn the polished tables.

Victory Garden Fall Clean-Up

Would Have To Change

Japan As Cruel Aggressor Has Not Loyalty Of Oppressed Races

Japan's war lords would like to make the most of the "Yellow Peril" by recruiting Aala's millions into "a united army to vanquish the white race." The threat is not to be lightly dismissed and has often been appreciated by military strategists. Japan has, however, expanded in Asia, not as a friend, but as a cruel aggressor, and she would radically have to change her foreign policy to win the loyalty of those races she has oppressed.

Rayons should be dried and blocked to shape by pressing on the wrong side with a steam iron, or covered with an evenly dampened pressing cloth.

Mrs. Nicholson sr. and Mrs. Nicholson jr. and Beverly visited at the home of Mr. and Mrs. G. Hinchison Sunday.

The Ladies' Card Club
Met Thursday Evening

The Ladies' Card Club met Thursday evening at the home of Mrs. L. Cooley. The prize winner was Mrs. L. Robinson. At the close a very dainty lunch was served.

The Club will meet on Thursday at the home of Mrs. Jas. Aitken.

Miss Florence Barros and brother Bruce motored to Drumheller on Sunday where they visited with their sister, Mrs. Bangs.

Please Contribute to
Christmas Parcels

The Chinook branch of the Red Cross are soliciting subscriptions on behalf of Christmas parcels for Local Boy Overseas. These lists have been placed in all stores and at the Garage. Please contribute early so that the parcels can be packed and mailed in good time. See that each local boy is remembered for Christmas.

CORRECTION

Born—To Mr. and Mrs. Geo. Peterson on Sept. 13th, a daughter.

Ceiling Prices
On Apples Set

OTTAWA, Sept. 27 (C.P.)—The prices board announced today that ceiling prices on apples when sold by growers in the main producing areas of Canada, and on apples sold at wholesale and retail, have been established under an order effective at once.

Three "production zones" have been designated and ceiling prices at all levels specified for each zone.

In Zone 3 British Columbia the growers, ceilings f.o.b. Kelowna for fancy grade apples, Standard box wrapped in group 1 are \$2.10, and for 2nd grade \$1.75. In group 2 the corresponding ceilings are \$1.85 and \$1.55.

In all zones apples of other grades or packed in other types of containers than those mentioned are "correspondingly priced," the board said.

On the above ceiling prices for growers, wholesale distributors are permitted to add transportation cost from f.o.b. points, and a mark-up not to exceed 12½ per cent of their selling price.

Retailers are limited to a mark-up not more than 20 per cent of the retail selling price on unbroken barrels, boxes or hampers or other packages, or 25 per cent of the selling price on broken lots of apples.

40 Manitoba Schools
Will Remain Closed

WINNIPEG, Sept. 24 (C.P.)—Hon. Ivan Schultz, minister of education, announced here on Wednesday that 40 schools in Rural Manitoba were unable to open this fall owing to a shortage of teachers.

However, he said, 18 of the schools will be supplied with teachers during the next ten days, but the remaining 22 will not be assigned teachers or at least a month.

LET'S BE DOING ...while we're planning

● Everybody is thinking a great deal about the future these days... planning... getting ready for the period to follow the war. All realize that the war may bring surprises—but the tide is turning in our favour.

Chemists and engineers, producing things needed for war, are making discoveries which will mean comforts and conveniences for all of us when peace comes. New methods of making things, new processes, new materials, now being filed away in blue prints and formulae, will bring us many new and useful articles. Many things not available now will be replaced by better models and designs.

You may have plans for a new home, remodelling your present home, new home furnishings. If you are a farmer you will need new and improved equipment and machinery.

Now, while you are thinking and planning, you can do something to insure that your plans can be carried out. Victory Bonds—which can be bought on convenient instalments, with money as you get it—provide a means of keeping your savings intact, earmarked for things you want.

Most Canadians are saving money. Most of us are buying Victory Bonds and when we buy Victory Bonds we are helping to win the war. We are helping to speed the day of victory and we are doing something that will benefit ourselves.

WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the face value of the Bond on the date of maturity with half-yearly interest until that time. A Victory Bond is the safest investment in Canada backed by the entire resources of the Dominion. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest when due. A Victory Bond is an asset readily marketable at any time.
